

Riteonline

Online print buying anytime, anywhere

WORKFLOW

Riteonline

Riteonline is a powerful online web browser-based print ordering and re-ordering system that streamlines the ordering of print jobs and allows printers' customers to procure customised documents or reprints at any time.

The system provides ultimate control over the document customisation, print-ordering, and approval process. By reducing manual intervention, Riteonline reduces job cycle times, lowers costs and improves productivity. A turnkey software application which seamlessly integrates into Trueflow^{net} workflow or works with other solutions using JDF/JMF messaging, Riteonline can be incorporated into existing operations very easily.

Riteonline

Online print buying anytime, anywhere

Secure online access for easy, safe ordering

Only authorised customers with web browser access can place orders. Orders are received without human intervention, so there is no need for re-keying of data. This reduces errors, lowers costs and improves productivity.

User-friendly design

The operator-friendly user interface doesn't require special web programming background. Riteonline includes individual and group shopping carts. And instructions can be given for shipment to multiple locations.

Accurate ordering and reordering

Information on current and previous jobs can be readily accessed. Templates can be repurposed for multiple uses.

Automated control over design

Print buyers can preview PDFs of individual jobs for online editing and content approval. Approved orders are output as production-ready PDFs. with presses, imposers communicate with folders and so forth.

Compatible internet browsers

Microsoft® Internet Explorer 6® (Macintosh or Windows® operating systems).

Recommended system configuration

Server platform

- Intel® Pentium® 4 (2 GHZ or higher)
- RAID System: RAID 5 (recommended, not required)

Server operating system

- Windows® 2000 Professional with IIS and .NET
